

Roaming CH: Which Neighbour Country Pays the Most?

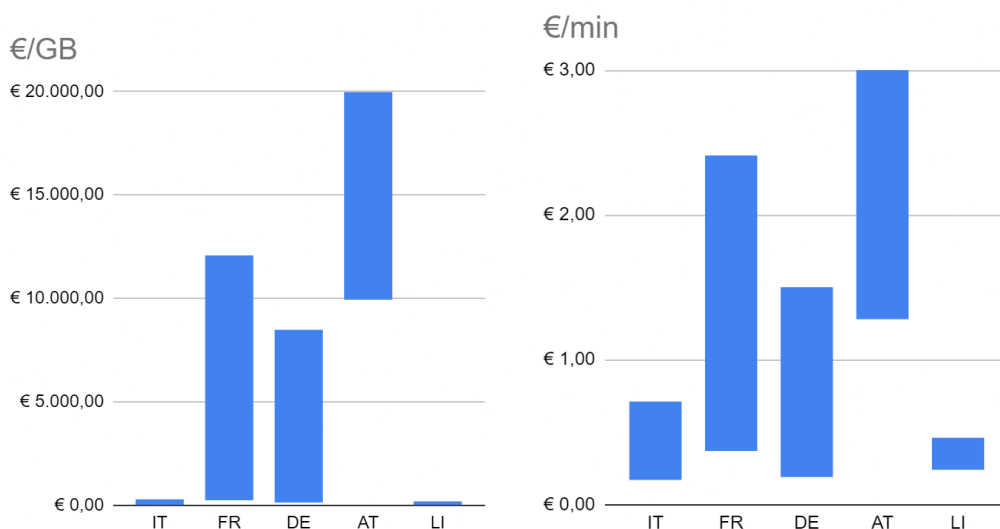

internet-offer.ch analyzed the roaming tariffs applied to tourists from five EU countries with a common border with Switzerland. Discover which country has the least and most expensive mobile operators when it comes to Swiss Roaming.

The following mobile operators were taken into account during this analysis:

- **Italy:** TIM, Vodafone, Iliad, Wind3, Fastweb.
- **Deutschland:** T-Mobile, Vodafone, O2, 1&1.
- **France:** Bouygues Telecom, Orange, SFR.
- **Austria:** Magenta, A1 Mobile, Drei Mobile.
- **Liechtenstein:** FL1, 7acht.

Since Switzerland does not participate in the European Economic Area, tourists cannot benefit from the Roaming Like At Home initiative and still have to deal with roaming tariffs and costs. Each mobile operator can negotiate local partnerships in Switzerland with carriers (Salt, Sunrise, and Swisscom) and can propose roaming bundles or standard rates for each unit of KB, minutes, or SMS consumed during their customers' Swiss stay.

Below, we report synthesized tables that show the standard rates range different tourists may face with their operators:

As we can observe, variations are consistent even if much higher in standard data roaming rates. Data roaming rates vary between €2.20/GB to €19,000/GB while voice call standard rates start from €0.18/min to €2.99/min.

Which Swiss Neighbour Pays Less?

On average, we can observe the following scenario:

	€/GB AVG	€/min AVG
IT	€ 67,44	€ 0,32
FR	€ 4.760,00	€ 1,37
DE	€ 3.205,00	€ 0,71
AT	€ 13.720,00	€ 1,86
LI	€ 55,00	€ 0,35

Please note that these figures have been retrieved applying the arithmetic average of standard rates offered by the analyzed partners.

In conclusion, Italians' voice call roaming rates are the best followed shortly by tourists coming from Liechtenstein. The third place goes to German tourists. The most expensive voice calls from Switzerland are made by Austrian neighbors.

Regarding data roaming, the first two positions are reversed. Germans are still third, and Austrians are far away occupying the last positions.

It is important to notice that the majority of French SIM subscriptions already have some Swiss roaming allowance for free every month, as well as the Italian Fastweb (subsidiary of Swisscom).

Remember: All standard roaming fares and roaming bundles offered by each provider can be found on the following organic pages on internet-offer.ch. With bundles or alternative solutions, tourists can still save a lot compared to their standard rates.
